

To Outpatients

To prevent the spread of novel coronavirus (COVID-19) infection, RGMC asks all patients and visitors to comply with the following:

- 1.) Make sure to wear a face mask.**
- 2.) Take your temperature at home before coming to the hospital.**

▶ Call the hospital beforehand if you have respiratory symptoms such as above 37.0 °C fever, cough, sore throat, lost of taste or smell, extreme fatigue, headache or diarrhea.

- 3.) Only one accompanying person is allowed.**

▶ If possible, no one or only one person should accompany patients to any appointment. Accompanying person should not be allowed if patient has above symptoms.
