

Effective from October 1, 2022

New prices of elective fee for patients without referral letter

Following the national revision of medical fees in April 2022, the hospital's charge for elective fee will be as follows:

●Who are required to pay an elective fee?

①New patients (first visit)

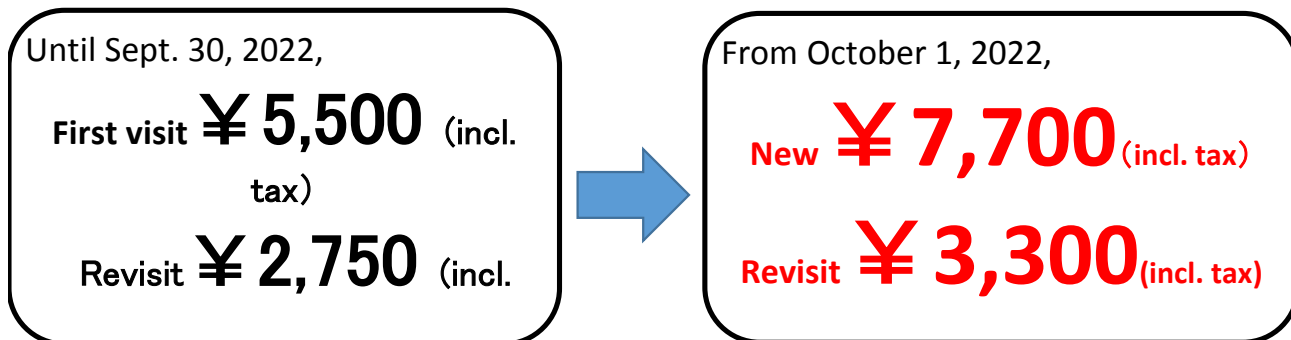

Patients without referral

Elective fee is charged everytime a new department is visited

②Returning patients (revisit)

Patients referred to other clinics (elective fees are charged per visit)

Elective fee is charged everytime a new department is visited

※The same amount of elective fee is charged for medical and dental services respectively.

●Who are not required to pay an elective fee?

- Patients with referral letter
- Patients transported by ambulance requiring urgent treatment.
- Persons with publicly funded medical certificates
- Patients referred from other departments of the hospital

※Walk-in patients who have not been seen for more than 6 months and patients whose treatment has ended are considered new patients.
