

## Visiting Hours

As of August 1, 2025, the visitation rules at our hospital are as follows. We will continue to review the situation and aim for further relaxation of these measures with your cooperation.

Hours:	13:00–20:00 (Weekdays, weekends, and holidays)
Frequency:	No limit within the above time frames
Location:	By the patient's bedside with curtains closed or in the day room behind the elevators
No. of visitors:	Up to 3 persons per visit
Who may visit:	The patient's designated key person will determine in accordance with the patient's wishes. Visitors must be in good health, aged 10 or older, and able to comply with the following precautions:

- Visitors should not have a fever, cough, diarrhea, or feel unwell on the day of the visit.
- Visitors should not have been ill, or had close contact with anyone who has been ill, within the past week.
- Visitors should not have children whose school or class has been closed due to an infectious disease outbreak.
- Eating and drinking are not permitted during visits. Patients and visitors are asked to wear masks.

How to visit:	Please sanitize your hands before entering the ward, complete the visitor log, and submit it to the nurse station.
